

SAPNA RANI

Software Engineer | Python & Java Backend | Data Analytics | QA Automation

sapnarani3502@gmail.com | +91 8252438537 | Bengaluru, Karnataka | LinkedIn Profile

PROFESSIONAL SUMMARY

Versatile Software Developer and Data Analyst with a B.Tech in Data Science and hands-on experience across backend development, data analytics, and automation testing. Proficient in Python, Java, and SQL, with expertise in building REST APIs, managing Oracle Databases, and creating interactive dashboards (Grafana, Power BI). Adept at utilizing CI/CD pipelines, AWS, and modern test automation frameworks (Playwright, Cucumber) to deliver scalable, production-grade enterprise solutions.

TECHNICAL SKILLS (NAUKRI KEYWORDS)

Languages:	Python (NumPy, PyTorch), Java, SQL, C++, JavaScript
Backend & Web:	REST APIs, Django, Flask, Spring Boot, Microservices, HTML5, CSS3
Data & Analytics:	Data Cleaning, Power BI, Advanced Excel, Grafana Dashboards
Cloud & DevOps:	AWS, Azure, Jenkins, CI/CD Pipelines, Git, GitHub
Test Automation:	Playwright, Cucumber (BDD), JUnit, Regression Testing
Databases:	Oracle Database, SQL Server, Relational Database Management

PROFESSIONAL EXPERIENCE

Software Developer Apprentice | Fidelity Investment, Bengaluru Sep 2025 - Present

- Backend & APIs:** Developed and maintained backend components and REST APIs for enterprise-grade financial services, integrating microservices to improve cross-system data exchange.
- Data & Analytics:** Wrote complex SQL queries for Oracle Database management, query optimization, and data extraction, ensuring high data accuracy. Built data-driven Grafana dashboards to monitor system health.
- QA & Automation:** Built and executed comprehensive automated test suites using Playwright and Cucumber (BDD), significantly improving test coverage and reducing regression time.
- DevOps:** Implemented and maintained CI/CD pipelines using Jenkins and Git for reliable AWS-hosted deployments.

Python Full Stack Development Trainee | JSpiders 2024 - 2025

- Completed rigorous training in Python Full Stack Development, focusing on frontend technologies, Python logic, and relational databases.
- Developed full-stack web applications and RESTful APIs, strengthening real-world problem-solving skills.

PROJECTS

Data Monitoring & Analytics Dashboard | SQL, Python, Oracle DB, Grafana

- Designed an analytical tracking solution that pulls database metrics and visualizes them on interactive dashboards for operational oversight. Automated scheduled health-check pipelines using Jenkins.

Automated Test Framework | Playwright, Cucumber (BDD), Java, CI/CD

- Developed an end-to-end test automation framework integrated directly into the CI/CD pipeline, enabling automated regression testing on every build.

EDUCATION

Bachelor of Technology - Computer Science & Engineering (Data Science)

2020 - 2024

C. V. Raman Global University, Bhubaneswar | CGPA: 8.26/10

ACHIEVEMENTS & CERTIFICATIONS

- Solved 200+ Data Structures & Algorithms problems on HackerRank.
- CCNA Certified - Cisco Certified Network Associate.
